

Hillside Junior School's Improvement Plan is all about how our children can become learners for ever.

What will the staff do for the pupils?

- ✓ We will give you feedback by marking and talking about your work so you know how to improve.
- ✓ We will assess your work and tests to help you improve so you make very good progress.
- ✓ We will concentrate on making you better mathematicians, so you have the skills to solve problems.
- ✓ We will help you by talking about what you read so it helps your understanding so you can become an even better reader.

We think we can all improve by using the 5Rs.

Reflection:

Thinking about the things we have done, like 3 stars and a wish when looking at our work and using that to make it even better.

Respect: Showing you care about yourself and other people's feelings, wishes and rights.

Resilience: When you find things hard you can try again and not give up.

Responsibility: Showing you can be trusted to do something. It also means taking the blame when you have done something wrong.

Resourcefulness:

Being able to overcome a difficulty by thinking of ways to solve a problem.
